

what's recycling all about?

Recycling isn't just a buzzword—it's a superpower!

By recycling, you're not only saving the planet but also making a positive impact on your community. Here's the lowdown:

- 1. Reduce, Reuse, Recycle:* It's the mantra! Reduce waste by using less stuff, reuse what you can (hello, thrift store treasures!), and recycle materials to give them a new life.
- 2. Sort Like a Pro:* Know your bins! Separate recyclables from trash. Glass, plastic, paper, and metal—each has its place. Check local guidelines for specifics.
- 3. Stop Scratching Your Head and Wondering:* Learn how to recycle the tough guys - electronics, paints, chemicals, and tires.

come join us . . .

at the West Newton Gymnasium to hear Natalie Reese from Westmoreland Cleanways and Recycling present and discuss the recycling process at Cleanways. She will talk about what items they accept, what happens to the items they collect and where those items go.

Come learn important details about recycling and make a positive impact on your community.

We hope to see you there!
